## Maratek Environmental: Who We Are

- **Maratek Environmental** is an award-winning leader in hazardous waste management, solvent recycling, premium solvent products, and solvent recycling technologies.
- **For over 50 years**, we have been designing environmentally friendly solutions for cabinetry, printing, packaging, coatings, automotive, aerospace, food, paint, pharmaceutical, and many other industries.
- **Licensed & Compliant:** We are fully licensed by the Ministry of the Environment and handle all environmental compliance to the highest standards.
- **RPRA Support:** We can assist hazardous waste generators with onboarding under the Resource Productivity & Recovery Authority (RPRA).
- **Full Delegate Option:** We can manage all manifesting and regulatory requirements under RPRA on behalf of generators.
- **The Maratek Advantage:** We help organizations cut solvent costs by up to 95% while reducing environmental impact through recycling and recovery solutions.

## Hazardous Waste Disposal

**Maratek Environmental** provides a complete end-to-end service for managing hazardous and non-hazardous waste. From the moment waste is generated, our team handles everything, including manifesting and container labelling, reporting to RPPRA to ensure full compliance for generators, and safe transportation to our licensed processing facility.

Our turnkey approach allows organisations to cut costs and streamline operations by relying on a single trusted partner for all waste streams. Whether it's paints, inks, solvents, oils, chemicals, acids, or plant cleanouts, we ensure that all materials are handled safely, compliantly, and with the highest standards of environmental responsibility.

## Service Offerings

### **Recycling & Disposal of:**

- Ink/solvent rags
- Oily rags
- Paints & inks
- Water washes
- Oils
- Graphic arts wastes
- Resins
- Acids
- Waste chemicals
- Flammable liquids
- Adhesives & Glues

**Plant Cleanouts:** On-site visits to review and manage items requiring proper disposal.

**Containers Serviced:** Small pails, drums, IBC totes, and bulk handling (including vacuum truck service).

**Complimentary Audit:** We provide a free audit of all waste streams to determine the most cost-effective and sustainable recycling & disposal solutions.

## MaraSolve Advantage Solvent Recycling Program

- We start with a consultation at your facility to review your solvents and collect a sample for testing.
- You'll receive a recycled sample to trial directly in your process, ensuring performance meets your needs.
- We supply recycled solvents in a range of container sizes from pails to drums to totes for flexibility and convenience.
- By reusing solvents, you cut costs and greatly reduce the volume of waste sent for incineration, making this a powerful sustainability solution.

## Premium Solvent Products (MaraSolve Line)

- |                                       |  |
|---------------------------------------|--|
| • MaraSolve Lacquer Thinner           | • MaraSolve Xylene                           |
| • MaraSolve Gunwash                   | • MaraSolve Mineral Spirits                  |
| • MaraSolve Acetone                   | • MaraSolve Blanketwash                      |
| • MaraSolve Methyl Ethyl Ketone (MEK) | • Other custom blends available upon request |
| • MaraSolve Isopropyl Alcohol (IPA)   |  |

## Solvent Recycling Equipment

Many industries generate waste solvents in their processes, but these solvents can be easily recycled for re-use. **Maratek** has engineered a full range of solvent recycling systems that separate waste solvents into clean, reusable product and safe waste residue.

Our award-winning, innovative equipment helps companies recover up to 95% of their solvents, delivering significant cost savings, fast ROI, and reduced environmental impact. The systems are safe, compliant, and easy to operate, and are available in sizes from compact models to large industrial units.

### How It Works:

Waste solvents are distilled, purified, and collected for reuse, while residues are safely separated. Plug it in, run your process, and watch your savings grow.

## Equipment Options

- **Solvent Saver Batch (SSB):** Compact, easy-to-use systems for small to medium volumes.
- **Solvent Saver Batch Premium (SSBP):** Semi-automatic units with advanced features for more demanding applications.
- **Solvent Saver Continuous (SSC):** Fully automated systems designed for high-volume, continuous operation.
- **Solvent Saver Engineered (SSE):** Custom-engineered solutions for unique processes and waste streams.

# Maratek Environmental

## Your Partner in Sustainable Waste Solutions

Maratek Environmental is a certified and award-winning leader in the solvent recycling industry. For over 50 years, Maratek has been engineering and manufacturing state-of-the-art solvent recycling systems that recycle solvents for the printing, packaging, kitchen cabinetry, millwork, pharmaceutical, industrial manufacturers, paint coatings, automotive, aerospace, 3D printers, furniture, and many more.

We are able to provide complete solutions for your company's liquid waste recycling, recovery and disposal needs, as well as for silver refining and recovery.
